Burning those materials in Utah would be illegal - please see the Utah code R307-202-5

<http://www.rules.utah.gov/publicat/code/r307/r307-202.htm>

Stephen,

Thanks for your reply.

Here are the items that I would like to burn: The pieces of black liner that are scattered throughout the south pond that were left when Magcorp left the site, the half dozen or so tires scattered around the area, the Styrofoam blocks, and the old liner that remains at the east end of the North pond, and the old liner that remains in the N-S canal east of the South pond (if we can get it out). Old pallets would also be burned. The lengths of white PVC, I am not quite sure what to do with them other than gather them up and stack them neatly and out of site.

Subject: Re: Burning

specifically what kind of material are you referring to? (tires, fuel, trash??)

Steve,

Question, would it be possible to burn a lot of the flammable material out at the knolls site? The reason I ask is because it is difficult to find someone to deliver a dumpster to the site. The company I rented from last year will not bring a dumpster out to the site this year.
